# ABOUT GROCAPITUS

---

Grocapitus Investments exists to find and present rock solid commercial real estate investments to our highly valued capital partners. In addition to producing attractive risk-adjusted returns for our investors, we strive to enhance the life of every tenant, team member, and individual that comes into contact with our business.

We help people become financially free by investing in multifamily apartment buildings, student housing, and industrial properties in high-quality markets nationwide. To accomplish this on a consistent basis, our rock star team executes our proprietary data-driven process for identifying, acquiring, managing, stabilizing, optimizing and divesting cash-flowing value-add Class B and C properties. We also build best in class new construction multifamily, student housing, flex industrial and self-storage projects.

## HOW WE SELECT MARKETS

### RENT GROWTH

The 5 year rent growth forecast is one of our key indicators. We use a powerful proprietary method to calculate this value.

### EMPLOYMENT

We look for metros and submarkets that are adding a significant number of high-paying jobs, resulting in a stable local economy.

### SALES TRENDS

We continuously monitor local sales to compute cap rates and determine whether our cap rates are on target to reach our projections.

### SUPPLY & DEMAND

We monitor the supply of local units carefully to ensure it will not spike the vacancy rates and negatively impact rents.

**Park Canyon, Dalton GA**

---

# OVERVIEW

Well diversified by geography and project type, Grocapitus' Portfolio of 25 syndicate projects (six sold), six projects within UGro Premier Build-to-Rent Fund, and two direct turnkey fourplex projects located across the United States, totaling a value of \$946.6 million. Grocapitus' largest exposure to any single asset is its interest in Avondale Commons, located in Phoenix AZ, valued at 10.5% of the Direct Portfolio. Grocapitus' exposure to residential projects represents 96% of the Direct Portfolio's value. Grocapitus also owns two industrial projects, Woods Cross Flex and Storage Depot, which represents 4% of the Direct Portfolio's value.

# INVESTOR REVIEWS

“

*"I've invested in 6 of Neal's projects. As I write this, we just had the first successful exit: the Windward Forest Multifamily project, where we earned >20% IRR. Neal and Ana are syndicators. They find projects that offer solid, stable and steady returns, and they put the right people in place to run each project. Each project is a separate LLC legal entity and is independent of the others. The funding comes from people like me; usually there is also a bank loan, which increases the overall return (but adds a risk, obviously)."*

*Overall, I am very impressed by Neal's approach. It's all about the numbers. He uses public and private data to find the fastest-growing metros in the US in terms of individuals income, new jobs creation and inflow of people. Then he narrows down to towns that have steady employment, good cap rates, and a shortage of rentals. He vets every project carefully before jumping into it. His presentations of each project are packed with meaningful, down-to-earth facts and calculations. This is on the acquisition side.*

*Then comes another big responsibility: putting a successful team in place to run the project. These teams do an amazing job. For each project the team prepares a monthly update that is packed with facts and numbers. Every quarter there is also a webinar where investors like me can ask questions and see the numbers down to each cent being spent and earned; think of these like company quarterly earnings reports.*

*Neal is extremely agile. Until COVID hit us, his projects were mostly multifamily deals (each with some value-add strategy that should increase the NOI). Since then, he realized that there may be higher risk in such deals due to tenants' unemployment, inability to pay rent, and eviction restrictions. So his last few projects are construction projects that will hopefully get completed after the pandemic is over. Still, I am very impressed by the multifamily projects performance: the occupancy levels have not gone down, and rent collection is very high, given the circumstances. I personally like the multifamily projects more, as they offer dividends from the rent income, and it's easier to predict their performance. Anyways, I trust Neal's numbers, so I have invested in his recent construction projects, too. Keep them coming, Neal!"*

- IVAN Z

The GRID, Buffalo NY

# INVESTOR REVIEWS

---

“

*“I have invested in a couple of opportunities with Grocapitus. One of them is a multifamily property, which has been performing superbly, and way better than the initial predictions. The second one is a new construction project, which is on-time, even during the COVID-19 pandemic. And the marketing material that the team has put together to lease these new units is top-notch. Awesome job by Neal and his team in managing the properties and consistent communication with their investors.”*

*As a Limited Partner investing in a syndication, for me, trust is a big factor. With Neal’s vast experience in multifamily construction, data-driven approach, and creative ways in solving problems as well as straightforwardness helped in creating the trust. I look forward to working with Neal on future opportunities.”*

**- AVINASH P**

“

*“I have several investments with Neal Bawa through Grocapitus. I trust that his underwriting is conservative and accurate. He is very knowledgeable about market conditions and is happy to share his research. During the course of the investments Neal and Anna are both very responsive and prompt in answering questions. Their reporting is consistent, timely, and provides an honest portrayal of how the property is doing. The returns I have received on my investments have been very close to proforma projections, even in these very difficult pandemic times. I would definitely invest with Grocapitus again in the future.”*

**- FARZANA P**

“

*“Challenging times take a dedicated group to plan and execute to meet investment objectives. The site and asset management teams at Grocapitus have worked hard to maintain occupancy, keep tenants safe, and delinquency low. Collectively, they have effectively managed expenses and incrementally increased rents to exceed NOI budget expectations.”*

**- ROB D**

“

*“Thank you for a thorough and newsy update. I am still in awe of your work efforts and completions in such a short timeframe. And in these hot, hot, hot summer months no less. The report is very detailed and it makes me feel like I am there to look at it all. Thank you for your dedication to excellence and for all your conscientious efforts. It is much appreciated.”*

**- LISA H**

**Park Lane, Houston TX**

# INVESTOR REVIEWS

---

*"Neal and his team are awesome! I've invested in 8 projects with him and after 3 years we've already sold three. He's outperformed other syndicates that I've invested with for much longer. I love getting his monthly updates. It's rare to have a syndicator update us so regularly. Grocapitus is a breath of fresh air. They do things differently and way better than their competitors. Thank you Neal for being an amazing leader to your team! I couldn't be happier with the results so far. Looking forward to investing more in the future."*

**- SARAH L**

*"I invested in Grocapitus' project because I liked their data driven approach to analysis and conservative underwriting. So far results have been delightful as the project has outperformed the projections and continues to perform well even during the coronavirus crisis. I also appreciate the fact that Grocapitus is easily available and they make it a point to communicate personally to address any questions I might have."*

**- ANSHU S**

*"As an investor in Park Canyon I am so impressed with the management team. One of the things that I really like are the quarterly updates of the project. They keep you informed of what is going on with the project and point out both the good and the bad. You are never kept in the dark about your investment. This is a fantastic project and I am so happy that I am an investor!"*

**- KATRINA J**

*"I had met Neal at a real estate investor meetup a few years back. Neal was very positive about investing in multifamily. He does a lot of research using data analytics on markets, identifying growth areas, finding good neighborhoods and shares the data and his findings with interested people and clients. His presentations are filled with a lot of info about the market, the property, the financials the expected returns, and his team patiently answers questions. One of our investments with Neal had an exit with better than projected returns (during uncertain times with the pandemic)!!"*

# Mill Race Phase 1A

Provo, Utah

Mill Race is a gorgeous landmark mixed-use (multifamily, office, condo, retail) project. At \$130 million, Mill Race is the biggest project being constructed in Provo, UT. It is a 4-phase project, with Phase 1 funded and Phase 2 opening for investment at a later date.. Opportunity Zone fund eligible. Phase 1A construction has encountered some delays due to the change in lending environment with the pandemic. The project was re-scaled and was value engineered to optimize the opportunity. Construction began in 2021 and is going well. Fully subscribed.

# Windward Forest

Atlanta, Georgia

CLICK HERE TO LEARN MORE ABOUT THE  
FUNDAMENTALS OF INVESTING FROM  
OUR RECOMMENDED BOOK LIST

Our first property in East Atlanta, Windward Forest was a 216 unit Class-C property, acquired in September of 2018. This was a true value-add multifamily opportunity through unit renovations and pushing rents to market. Our business plan also included replacing some roofs, along with a green program that replaced all of the toilets and converted to LED lights, and reducing expenses in a variety of ways such as installing high tech security cameras to reduce the onsite security costs. From the onset of our ownership we were challenged with occupancy as we struggled to stay above 90% physical occupancy. The paint job and amenities and very evident turn around in the property appearance helped, but it was not until we plugged in our Efficiency Center to increase tenant leads to the property through Mega Marketing, and assist with the booking of appointments at the property with Mega-Leasing that we really turned around our occupancy challenges. We started in April of 2019, and added an average of 250 tenant leads per month. Despite overcoming physical occupancy issues, the property experienced overall underperformance due to continuing delinquency issues, and as the opportunity presented itself in 2020 (despite COVID) we "tested the waters" for an off market sale, and managed to sell the property with both a projected IRR and annualized return that exceeded the original investor projections in spite of COVID-19! The Grocapitus Efficiency Center played a vital role to keep occupancy high (avg 95%+) and added a whopping 6500 leads overall which led to 31 leases, increasing the value of the property by 358,714. Fully subscribed.

RENTAL TOWNHOMES WITH  
PROVEN \$3100/MO RENTS

# Nova RTP1 Townhomes

Durham, North Carolina

Our most unique project, Nova RTP1 is a venture to build and sell 46 contemporary townhomes in Durham, North Carolina. Due to its unique no-debt structure and short term timeframe, the project was 3X oversubscribed within a week of its launch. Construction on the project is behind schedule due to the city's addition of unexpected requirements in a late stage of the building permit review and approval process, followed by city delays related to the pandemic. The price of lumber has also created a challenge, but we are timing the market and forging relationships to get the best prices. We have permits in hand and are going vertical with construction and phase one of 8 total townhomes is in the final stages of completion. The real estate market continues to be very strong in Durham, NC - recently selected number one by the PWC Urban Land Institute - so while we have had many delays and challenges on this project, our sales have been very strong for the townhomes as this market continues to be very hot. Our proforma was based on \$165 / SF and we are currently getting contracts for \$190-\$220 / SF and anticipate even higher pricing in the coming months as the townhomes start rolling out. Phase 1 units were pre sold and preparing to close and many units in phase 2 are under contract pending unit completion in the coming months. Fully subscribed.

# Park Canyon

Dalton, Georgia

Located in Dalton GA, Park Canyon is a 151 unit stabilized Class B multifamily in the high growth corridor between Chattanooga and Atlanta. Acquired November 2018, the property over-performed continuously, and continued to be an extremely strong asset even through Corona. It had the lowest delinquency of all of our projects with nearly perfect 0% delinquency month over month, and occupancy consistently at 97% to 99%. While under management, we built 29 additional units which were completed in July of 2021 and leased up in less than two months. Distributions were issued from inception, with the exception of the first quarter of 2020 when Corona hit. We made a decision to hold that one quarter of distributions to be cautious and build up our reserves. Based on the ongoing performance of the property, even in COVID times, we resumed distributions as of Q2 2020. We sold the property in January 2022 with class leading returns. Fully subscribed.

## PARK CANYON INVESTOR REVIEW

---

*"I've been extremely happy about the Park Canyon project. Neal, Anna and the Grocapitus team were truly professional and diligent during the entire time. They stayed on top of everything, never missed one single monthly / quarterly update (which is really amazing!). They went extra miles to ensure that the investors get the best possible return. For example, before selling the project, they even redesigned the Offering Memorandum pages by the broker to make it look more attractive to potential buyers.*

*The team also has the rare ability to identify unique, unusual opportunities for further improvements. Park Canyon by itself was*

*already a great value-add project, but they were able to see the unique opportunity to rebuild the Phoenix building (on the site of a previously burnt down building) and the tremendous value it could bring. This move allowed the project to deliver an outsized return that greatly exceeded my expectations for a value-add.*

*I consider myself very lucky to be in this project. Big thank you to Neal, Anna and the Grocapitus team!"*

**- CHONG Z**

# Park Canyon Second Inning

Dalton, Georgia

We loved this property so much, we bought it again in 2022! Located in Dalton GA, Park Canyon is a 180 unit stabilized Class B multifamily in the high growth corridor between Chattanooga and Atlanta. Occupancy and collections are consistently over 98%. We are continuing site renovations and unit upgrades that we started under our previous ownership cycle. We are also planning on building 48 new units from scratch, much like the additional 29 unit building we added in the first go round that leased up entirely in under 60 days. We anticipate rents will continue to grow in this market for many years and there is little to no new building in the area which allows rents to continue climbing. This property is a true gem. Fully subscribed.

# *The Falls at Crismon Commons*

Mesa, Arizona

New stunning, modern ground-up 240-unit A class property in high-growth sun-belt metro Mesa, AZ. We received unanimous approval from the planning board and city council, and are fully zoned and entitled. The increase in materials prices introduced in 2021 caused us to take a step back and value engineer the project, which we successfully brought prices in line with the original all in budget of ~\$58M without sacrificing any rental SF for units. On another note, our appraisal (required for loan) came in at a whopping 80M - so our land costs and local rent increases have given investors a big leg up. Ground-up construction commenced Q2 2021 with completion expected by Q1 2023. Fully subscribed.

CLICK HERE TO LEARN HOW WE USE DATA TO PICK OUR MARKETS

Purchased March 2019, our first property in Tucson, AZ is a 114 unit property in a growth area with new medical centers and malls nearby. Under market rents and tired units provide a true value-add opportunity with this community. We expect to reach our five year projected returns in three years or less. We were on track to exit even sooner, but the pandemic slowed down our business plan. This property suffered some of the harshest consequences from Corona, as several tenants who were not impacted financially staged a "rent strike". Fortunately, Arizona has very reasonable landlord / tenant laws and during COVID allowed evictions under certain circumstances. As a result, we have been able to remove all the "rent strike" tenants, and have resumed our business plan. Occupancy and collections are very strong, Distributions have been on hold for this project to preserve capital. Tucson, however, continues to be a very strong market and we are currently marketing the property for sale and anticipate it will be sold by Q3 2022. This will provide investors with a catchup on their delayed distributions, and then some. This property is a great example of data driven methodology for market and neighborhood selection offering a buffer during challenging cycles. Fully subscribed. Due to the very hot market in Tucson, this property was sold in Q2 2022 for \$185K per door (purchased at \$55K per door). Investors received almost 4x equity multiple, a 121% average annualized return.

# Woods Cross Flex

Salt Lake City, Utah

We have been eyeing the Industrial market for many years, and the strong performance post COVID reconfirmed our interest. Our first Industrial project, Woods Cross is a short-term shovel ready FLEX Industrial new build just north of the fast growing metro of Salt Lake City, with a projected 3 year exit. Fully zoned and entitled, with all entitlement risks removed consisting of 207,275 square foot Industrial Park, 27,419 square foot Storage Yard for parking or loading dock space, 5 Buildings in total with 2 buildings pre sold for 30,000 square foot. Land has already been purchased, permits and lending terms are in place. We are off and running with our loan approved, and phase one (2 buildings) nearly completed with the remaining 3 buildings (phase 2) not far behind. Construction will be completed before the end of 2022. Fully subscribed.

# Chelsea Place

Atlanta, Georgia

CLICK HERE TO LEARN  
ABOUT REAL ESTATE  
FUNDAMENTALS

Located less than 2 miles from Windward Forest, Chelsea Place is more upscale with townhouse type units surrounded by beautiful foliage and rolling terrain. The property underperformed slightly in the first 12 months, then got a massive uplift from our Efficiency Center starting August 2019. Chelsea Place received 5 times the lead flow and 3 times the appointments than it was before, and occupancy increased to 98% and higher. Due to the townhome style, Chelsea Place became a very desirable place to live during the pandemic. We dialed back the renovations to "classic with a pop" to save capital expenditures, and we were still able to get strong market rents for incoming tenants. The very high occupancy also helped to offset the uptick in delinquency from COVID. We had paused distributions to preserve capital in case of a downturn in collections from COVID. With a short term remaining on our interest only period for our 10 year loan, we tested the waters for a sale where someone would be assuming the current loan, The property sold in July 2021. Fully subscribed.

This 320 unit new construction apartment complex in Avondale is a modern, contemporary development situated within the keystone business community in Metropolitan Phoenix's flourishing West Valley. As part of a larger mixed-use site named Avondale Commons, this project is completely separate from the future medical and retail piece of the mixed-use development. Located in the #1 Fastest Growing County in the nation four years in a row, Avondale is on strong footing and has benefited greatly from a resilient labor market and positive migration. Phase 1 of the project is fully subscribed. Phase 2 currently is open for subscription. 1031 eligible. Construction begins in mid 2022.

# Fairview

Greenville, South Carolina

Acquired September 2020, our first property in Greenville, SC is a 120 unit property in a stable growth area with cumulative effective rent growth of 15.9% (3.2% annually) and an average occupancy of 95%. Greenville County's 10-year average annual population growth is 2.1%, which is 72% higher than the overall Greenville MSA and average household Income is \$87,400 within a 3-mile radius (19% higher than MSA). Therefore, the submarket is poised to continue to see rent growth for the foreseeable future. Furthermore, Greenville County is experiencing significant growth and investment from local employers and foreign firms. Fairview has a proven interior renovation program where the current owner spent over \$1 million to renovate 30% of the units. By moving to a more consistent finish level, we achieved higher rents of over \$100 per month immediately. We had planned to hold the Property for 5 years to maximize growth but received an off market offer in early 2022 for 59% above our purchase price, which exceeded the 5 year plan in under 2. The property closed in April 2022. ARR from the sale exceeded 70% vs our plan of 18.3% and equity multiple of 2.2% vs. the 5 year plan of 1.92%.

# Casata San Marcos

San Marcos, Texas

OPEN FOR SUBSCRIPTION.  
CLICK HERE TO SCHEDULE  
A CALL TO DISCUSS

Launched in February 2022, Casata is our first modular construction community located in San Marcos TX. Casata San Marcos is an eco-living micro home rental community development situated near Texas State University and one of the largest premium Outlet malls in the country. San Marcos rents are increasing quickly as renters seek more affordable communities within driving distance of Austin. Due to its modular construction, the community will be completed, and investors will begin receiving cash flow, in a much smaller time frame than traditional stick-built construction. Casata's community design includes many community events, pool, community gardens, and much more. The concept was received exceptionally well in their pilot community in Austin, which was 83% preleased 90 days before the community opened.

# Country Place

Killeen, Texas

Country Place is a 137 unit, 2 bedroom community in the rapidly growing central Texas area. Killeen is one of the fastest growing markets in the country. Newly acquired in January 2022, and the newest property in the area, we project property rents will accelerate quickly with our business plan. Occupancy is consistently high, and delinquency historically very low as this property's main tenant base comes from the nearby Army base, Fort Hood. We will be doing a property rebrand, and renovating roughly half the units to a platinum package. Some renovations were started by previous ownership taking about half the units up to a gold package, the main differentiator between ours and theirs being the installation of quartz countertops throughout. We will also begin exterior upgrades to the building's, and extensive changes to the common areas such as the bark park, grilling gazebo/picnic area, and pool area. We anticipate a strong annualized return. Fully Subscribed.

# TURNKEY OPPORTUNITY IN HOTTEST CITIES

## BUY A BRAND NEW FOURPLEX

### START EARNING PASSIVE INCOME NOW!

By turnkey investment, we mean everything is already set up for you to start generating passive income right away. We've got the units pre-leased - once construction is complete, tenants will move right in and property managers will start handling day-to-day operations.

There's no construction loan, no recourse loan and most importantly, you are the sole owner of your fourplex.

### AVAILABLE PROPERTIES:

- UNIVERSITY OAKS
- BOTANICA OAK HILLS
- PARK LANE HOUSTON
- BOTANICA CHASE HILL
- BOTANICA SOUTHPARK
- EQUINOX IDAHO FALLS
- EQUINOX NEW BRAUNFELS

### TAX INCENTIVES

#### 1031 ELIGIBLE

With a 1031 exchange, you can sell another property for a profit and defer the capital gains tax on the sale by buying another property right away. The timeframe for 1031 eligibility starts 6 months before delivery.

If you have another piece of real estate you're looking to exit, a 1031 exchange into our fourplex properties could be the smartest money move you make this year.

# Botanica Oak Hills

San Antonio, Texas

1031 ELIGIBLE FOR 100% OWNERSHIP

Launched December 2020, Botanica Oak Hills is our third new construction boutique affordable-luxury fourplex community. This unique development with highly desirable features merges cutting-edge coronavirus resistant health & wellness initiatives with striking green wall and boxwood design. Classified as Class A low-rise multifamily housing, the project is located in the most sought-after submarket in San Antonio - nestled inside the 900 acre South Texas Medical Center and the acclaimed, 170 acre Oak Hills Golf & Country Club. The area has direct access to upscale residential communities, retail, leisure and businesses. The location is within minutes of San Antonio's largest employers with a staggering 800,000 high income jobs within a 30 minute driving radius. Income growth in the area is also stunning at almost 11% in the last 2 years, allowing rents to be raised as incomes increase. The project is fully subscribed for the syndication with an estimated three year exit with no debt post construction. We have successfully pre-sold 14 of the 24 fourplexes, ensuring that the construction debt will be paid off at certificate of occupancy. We will consider selling additional fourplexes to 1031 buyers at Certificate of Occupancy, which is estimated to be completed by December of 2022. Please note that the time frame for 1031 eligibility starts 6 months before delivery.

# University Oaks

Houston, Texas

1031 ELIGIBLE FOR 100% OWNERSHIP

OPPORTUNITY ZONE INVESTMENT

Our first post-Corona project, University Oaks is a stunning class A boutique affordable luxury apartment project with million dollar-home inclusions and finishes in a stylish neighborhood located within close proximity to the University of Houston, world-class Texas Medical Center, UH medical campus, Downtown Houston and Rice University. It is the perfect addition to an area that has a bustling, innovative urban core with robust economic development with a focus on wellness. We did experience permitting delays due to COVID as did many projects. The project has received funding from the lender at 4.75% and we have broken ground on both project sites. One of the sites has vertical construction well underway with the second site not far behind. We have pre-sold six of the eight fourplexes, with only three sales needed to pay off the construction loan at certificate of occupancy (CO) and allow us to hold the remaining fourplexes debt free. We may also sell off the remaining five fourplexes at CO which would result in an extremely high IRR for the syndication investors. For Investors interested to purchase fourplexes and own them outright at CO, they have two unique tax advantages : they are in an Opportunity Zone so can be used to offset your capital gains, or can be purchased via 1031 exchange. Please note that the time frame for 1031 eligibility starts 6 months before delivery. Both sites will be completed in 2022.

# Park Lane Houston

Houston, Texas

1031 ELIGIBLE FOR 100% OWNERSHIP

Our second boutique fourplex project launched Sept 2020: Park Lane Houston is a collection of bayou and park-frontage, branded, designer Class-A multifamily residences, in the heart of one of Houston's fastest urban growth corridors, University Oaks. These exceptional health & wellness focused luxury apartments are only 5 minutes south-east of Houston's vibrant EADO, midtown and city center. Designed to be an iconic architectural masterpiece, Park Lane is set to become the future benchmark for boutique multifamily values, merging cutting-edge coronavirus resistant health & wellness initiatives with striking green wall and boxwood design. Park Lane Houston, in one of the fastest growing cities in the U.S. is a COVID-19 resistant opportunity that has multiple exits and a very large tenant and buyer pool. Plus it is in very close proximity to world class education and health care, including the world's largest medical center. Project is fully subscribed for the syndication with an estimated three year exit with no debt post-construction. We are working with investors who are interested to purchase one or more fourplexes directly from us at Certificate of Occupancy, which is estimated to be complete in 2023. Please note that the time frame for 1031 eligibility starts 6 months before delivery.

This document includes information regarding the past performance of Grocapitus' property portfolio. Past performance of the property portfolio should not be relied upon as being indicative of future performance. Any forward-looking statements included in this document are based on information available to Grocapitus as at the date of this document and are not representations, assurances, predictions or guarantees of future results, performance or achievements expressed or implied by the forward-looking statements. Such statements involve known and unknown risks, uncertainties, assumptions and other factors, many of which are beyond the control of Grocapitus. The actual results of Grocapitus may differ materially from the anticipated results, performance or achievements expressed, projected or implied by these forward-looking statements and you should not place undue reliance on such forward-looking statements. Grocapitus undertakes no obligation to update these forward-looking statements. This document is not intended to be relied upon as advice to investors or potential investors and does not take into account the investment objectives, financial situation or needs of any particular investor. The information and figures contained in this document are current as at July 20, 2022 unless otherwise specified. In addition, the information presented is in summary form only and does not purport to be complete.
